***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1, 2, 8-10, and 23-27, drawn to an isolated nucleic acid molecule encoding the amino acid sequence of SEQ ID NO: 2, a vector, a host cell, and a method of producing a polypeptide, classified in class 536, subclass 23.5; class 435, subclass 320.1, 325, and 69.1.
  - II. Claims 21 and 28, drawn to an isolated nucleic acid molecule encoding the amino acid sequence of Seq ID NO: 3, a vector, a host cell, and a method of producing a polypeptide, classified in class 536, subclass 23.5; class 435, subclass 320.1, 325, and 69.1.
  - III. Claims 17--20, drawn to a fusion polypeptide comprising SEQ ID NO: 3, classified in class 530, subclass 350.
2. The inventions are distinct, each from the other for the following reasons. Inventions I-III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP §806.04, MPEP §808.01). In the instance case, the different inventions are drawn to completely different products, polynucleotides and polypeptides. These molecules have completely different structures and biological functions which are not interchangeable and which require non-cohesive searches and considerations.

Art Unit: 1646

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for a single group is not required for any other group, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (I).
